THE CARDIOPULMONARY RESUSCITATION & AUTOMATED EXTERNAL DEFIBRILLATION COURSE

The Cardiopulmonary Resuscitation & Automated External Defibrillation Course is designed to train individuals and company staff that require training in basic life support and automated external defibrillation. This course will provide the necessary skills to manage a patient that is unconscious and not breathing normally until the arrival of the emergency services.

This course meets the guidelines of the UK and European Resuscitation Councils for Basic Life Support and the use of an AED.
